

# BLUE SAPPHIRE

## *Mental Sharpness*

Blue sapphire is a stone of mental focus and order, as well as inner vision and psychic awareness. It can help open the third eye to receive wisdom and insight, and the throat chakra to communicate that vision to others.

Blue sapphire is a good stone for mediums, channels and other psychic workers. It can also help anyone whose job it is to collect and organize information and impart it to others, such as writers or teachers.

If you are using mindfulness to combat anxiety or depression, blue sapphire can effectively see through thought spirals when they start and help you direct your mind away from negative pathways.

### **Top Three Benefits of Blue Sapphire:**
